

## The Fear Industry

runs 24-7 in American.  
Seems my pension and  
Social Security sd defunct  
any minute

homeless person complzinanothr  
hs stole his bike. Is this

the sort of just we'll endure  
when most of us are street persons.

Under Capitalism you fear instant destitution.  
Under Communism, utter control.

The moral imperative under each:  
How to Cheat.
